

GovWare 2019 Keynote Speakers

Tim HWANG
Executive Director
The Cognitive Security Institute

Tim Hwang is a writer and researcher focusing on the strategy and implications of online information operations. He is the former Director of the Harvard-MIT Ethics and Governance of AI Initiative, a philanthropic project working to ensure that machine learning and autonomous technologies are researched, developed, and deployed in the public interest. Dubbed “The Busiest Man on the Internet” by Forbes Magazine, his current research focuses on the geopolitical aspects of computational power and machine learning hardware, and regulatory frameworks around online disinformation and misinformation.

George KURTZ
Chief Executive Officer and Co-Founder
CrowdStrike

George Kurtz is the CEO and co-founder of CrowdStrike, a leading provider of next-generation endpoint protection, threat intelligence, and services. Kurtz is an internationally recognised security expert, author, entrepreneur and speaker. He has more than 26 years of experience in the security space, including extensive experience driving revenue growth and scaling organizations across the globe. His entrepreneurial background and ability to commercialise nascent technologies have enabled him to drive innovation to market throughout his career.

Fook Sun LEE
Chairman
Ensign InfoSecurity

Mr Lee is the Chairman of Ensign InfoSecurity and was first appointed as a Board member of Quann World in August 2017. He is the Chairman of the Building and Construction Authority and sits on the boards of DSO National Laboratories, SMRT Corporation Ltd and Great Eastern Holdings Limited. Kevin MANDIA
Chief Executive Officer
FireEye

Kevin has served as FireEye Chief Executive Officer since June 2016 and was appointed to the company's Board of Directors in February 2016. He was previously President of FireEye from February 2015 until June 2016. Kevin joined FireEye as Senior Vice President and Chief Operating Officer in December 2013, when FireEye acquired Mandiant, the company he founded in 2004. Before Mandiant, Kevin was the Director of Computer Forensics at Foundstone (acquired by McAfee Corporation) from 2000 to 2003, and the Director of Information Security for Sytex (later acquired by Lockheed Martin) from 1998 to 2000.

Conrad PRINCE CB
Senior Advisor, Cyber Security
BAE Systems Applied Intelligence

From 2008 to 2015, Conrad Prince served as the senior official (Director General/ three-star equivalent) responsible for the intelligence and cyber operations conducted by Britain's signals intelligence and cyber security agency, the Government Communications Headquarters (GCHQ). In March 2015, Conrad was appointed the first UK Cyber Ambassador, a post he held until February 2018. After leaving Government service, Conrad took up a range of advisory roles relating to cyber and security. He is a senior adviser to BAE Systems Applied Intelligence, as well as in the financial services and specialist insurance sectors. He is a Distinguished Fellow at the leading UK think tank, the Royal United Services Institute, and their senior cyber advisor.

Jeff REED
Senior Vice President, Product, Security Business Group
Cisco Systems

Jeff Reed is Senior Vice President of Product for Cisco's Security Business. In this role he oversees product management, customer success and technical marketing for the industry's leading security portfolio. Previously,

Reed was SVP of Cisco's Enterprise Infrastructure and Solutions Group (EISG), encompassing a \$16B networking product portfolio, where his focus was on delivering Cisco's Digital Network Architecture (DNA). Prior to that, Reed had responsibility for the company's SDN solutions and architectures for enterprise customers. Additionally, he was General Manager for Cisco's largest switching business unit, the Unified Access Group.

Ravinder SINGH
President
ST Engineering

Mr Ravinder Singh is the President of Electronics, ST Engineering. Since the appointment in 2017, Ravinder has led the expansion of the business global network and partnerships, and the development of deep domain capabilities to shape connected, secure and sustainable cities. He also leads the Defence Business for the ST Group. Under his leadership, the Cybersecurity business has opened its Cybersecurity Academy and has advanced its innovative products and solutions, and even won a CES Innovation Award 2019. With over 30 years of technology and defence experience, Ravinder lends cybersecurity insights from both a practitioner and advisor perspectives.

John SUFFOLK
Senior Vice President and the Global Cyber Security
& Privacy Officer
Huawei

With more than 30 years of experience in the information and communications technology industry, John Suffolk is a Senior Vice President and the Global Cyber Security & Privacy Officer (GSPO) for Huawei. In this role, he oversees the enhancement and implementation of Huawei's end-to-end global cyber security assurance system, which includes monitoring and improving all aspects of information security across the company's global supply chain, in addition to the management of the Trusted Delivery Process. Mr. Suffolk is responsible for strengthening the company's understanding of information security issues of governments and operators and ensuring the trusted delivery of telecommunications networks.
